

TARIFF AUTHORITY FOR MAJOR PORTS

**Rani Jadhav,
Chairman, TAMP**

MESSAGE

With the liberalization and opening up of Major Ports sector for private investment, Tariff Authority for Major Ports (TAMP) was constituted in the year 1997 with an objective of ensuring a level playing field to all stakeholders. TAMP strives to balance the necessity to safeguard the interests of port users and the need to provide just and fair return to the port operators. In its working, TAMP has consistently endeavoured to make the tariff setting process objective, transparent and predictable.

2. This Authority is committed to the participative process of decision making and in conformity with this stated position, we have been interacting with the concerned user groups / organizations in each of the tariff proceedings. To enhance transparency in our functioning and to adhere to the principles of natural justice, we always attempt to convey our decisions through self contained and reasoned orders.

3. We encourage a complete honest and corruption free system and processes. We realize, the accomplishments made so far and the tasks to be achieved may not be possible without the active cooperation of all the stakeholders and the Government of India and, more importantly, our small, but dedicated team of staff members.

4. We welcome your comments and suggestions on our functioning which will provide valuable feedback to us to effect necessary improvements within the statutory mandate and guiding framework given to us.

(Rani Jadhav)
